CLERK APPELLATE COURTS

JUDICIAL ETHICS ADVISORY PANEL

Judicial Ethics Opinion JE-49

June 15, 1994

Question: Is there a conflict between the office of part-time city attorney of one city, and that of part-time municipal judge of another city?

Facts: The petitioner states that he is serving as the city attorney for one city, and he has recently been appointed as a municipal judge for another city. Petitioner would like to continue in both positions.

Answer: We find no conflict between the two positions, no appearance of impropriety, and nothing in the Code of Judicial Conduct which would prohibit one person from holding both part-time positions in different cities.
